DETAILED ACTION

Allowable Subject Matter

1. Claims 11-39 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the invention claimed by applicant. In particular, the prior art fails to disclose a cassette for a blood processing system wherein a first and second pump are in selective communication with the same fluid paths. Furthermore, the prior art fails to disclose a controller that is programmed to move fluid in various directions through a single valve, along with the other steps and limitations of the claims. The best prior art of record, US 5,628,908 to Kamen, discloses a fluid pumping cassette for dialysis with pumping stations, valves, and fluid flow paths. However, the Kamen device discloses that the pumping stations are connected with only with discrete fluid paths, and the valves of the Kamen device are designed for one-way fluid flow. Therefore, the present invention is patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leslie R. Deak whose telephone number is 703-305-0200. The examiner can normally be reached on M-F 7:30-5:00, every other Friday off.
